RE: Request for Additional Information (RAI) – License renewal US NRC Radioactive Materials  
License 06-20775-01; Docket 03022060 Control No. 575461 - **Request for Extension**

---

Dear Mr. Seeley:

EnergySolutions has received the NRC's request for additional information (RAI) dated August 30<sup>th</sup>, 2011 regarding our license renewal request submitted on June 24<sup>th</sup>, 2011. Due to coinciding work, it will be difficult to adequately respond to the RAI by September 30<sup>th</sup> as requested. As discussed in your recent phone conversation with Mr. Michael Carr, EnergySolutions is requesting an extension until October 28<sup>th</sup>, 2011 to fully respond to the RAI.

If you have any questions, please contact our RSO, Mr. Michael Carr at 865-425-4587; [mcarr@energysolutions.com](mailto:mcarr@energysolutions.com), or myself at 865-481-6325; [ajpalmer@energysolutions.com](mailto:ajpalmer@energysolutions.com).

Sincerely,

Art Palmer, CHP, PMP  
Director, ES&H and Radiological Services  
EnergySolutions
