Subject: FW: RE: ADDITIONAL QUESTIONS for ICAL, NRC Licence No. 12-24846-01 Termination

Dear Linnea Harris:

My name is Cassandra (Sandy) Frazier, Senior Licensing Reviewer; please note that your termination request has been re-assigned to me to complete the review. ***Please provide all future responses to Cassandra.frazier@nrc.gov, (630) 829-9830.***

This is in reference to your responses sent via emails dated August 20, 2011 (to Patricia Pelke). We have reviewed your responses and have the following two additional questions to **complete** the review of your request to terminate your NRC license:

1. In your response it is indicated on the chart with the list of nuclides purchased, that several sealed sources (denoted with an asterisk*) Pu- 239; four sources - LGS# 393, 394, 395, 396 and Tc-99; two sources – LGS# 803 and 934, were transferred to "Manufacturing Sciences." Please provide the License Number or a copy of the License for Manufacturing Sciences so that we can confirm that they are licensed to receive the sealed sources that were transferred.
2. Provide an address to mail all future correspondence regarding this license (i.e., license termination amendment). If you wish to have future correspondence mailed to the address on the license (2130 Gary Court, Decatur, Illinois), please confirm.

Please provide your response within 5 days and indicate that this is additional information to **Control Number 575345**. *If you have any questions or need clarification regarding the requested information, please give me a call at (630) 829-9830.*

Sandy
