Subject: FW: September 19, 2011 letter concerning IW017/02 and XW010/02

Jane,

Please put this email in the file and in ADAMS. It is the TN response to our letter regarding the EnergySolutions amendment.

Thanks!

-Jenny

Subject: September 19, 2011 letter concerning IW017/02 and XW010/02

Reference NRC application IW017/02.

Dear Ms Owens:

Thank you for the opportunity to comment on NRC application IW017/02 concerning the import and export of radioactive waste from Canada by EnergySolutions (Duratek), Oak Ridge, Tennessee. Our review indicates that these changes remain consistent with the authorizations granted by the Tennessee Radioactive Material licenses issued to Duratek. Thus, we have no objection to the issuance of these licenses.

Please confirm receipt of this information at your convenience.
