RE: Amendment Request for Radioactive Material license No. 07-16862-01
St. Francis Hospital; Wilmington, DE

Dear Sir/Madam::

We wish to make the following amendments to our Radioactive Material License:

1. Please remove the following users from our license:
 - a. Dr. Fred Wang
 - b. Dr. Steven Herman

2. Effective immediately, please change the Radiation Safety Officer from Fred Wang, M.D. to Mark T. Perna, M.S. Mr. Perna's credentials can be referenced from license number 47-16259-01 (Monongalia General Hospital; Morgantown, WV). Mr. Perna's appointment as RSO is expected to be temporary while we search for a new permanent RSO.
 - a. Mark Perna has the full support of the management of Brookville Hospital in exercising control over the radiation safety program. He has the full support of management in exercising control over authorized users or any other persons when confronted with radiation safety problems that require the implementation of corrective actions.
 - b. Mr. Perna has the full support of management in procuring all reasonable funds to facilitate the objectives of our radiation safety program and related regulatory requirements.
 - c. Mr. Perna is a medical physics consultant with accounts primarily located throughout Pennsylvania, West Virginia and Ohio. He expects to be routinely on-site an average of 1-2 hours per quarter. Given the small size of our nuclear medicine program, this is expected to be more than adequate to meet all of the NRC and DE state regulatory requirements. The radiation safety program is in excellent shape and is running very smoothly. In the unlikely event that any problems occur that cannot be handled by phone, e-mail or fax, Mr. Perna will return to handle them in a timely manner. He could be onsite in under 5 hours.

576129
NMSS/RGN1 MATERIALS-002

- d. Robert G. Stineman, CNMT, RT, (NR) Nuclear Medicine Supervisor, has been appointed in-house representative to Mr. Perna. He will serve as point of contact in Mr. Perna's absence.
 - e. Mr. Perna is generally available 24-7 by phone and slightly less so by e-mail
3. Remove our old hot lab location from our license. This request is made in reference to Control number 575182. All operations have been relocated to our new hot lab and operations in the old location have ceased. Attached is a diagram showing the final survey and wipe tests of the old area. This area will be used for equipment storage and access to the mechanical room once it is released

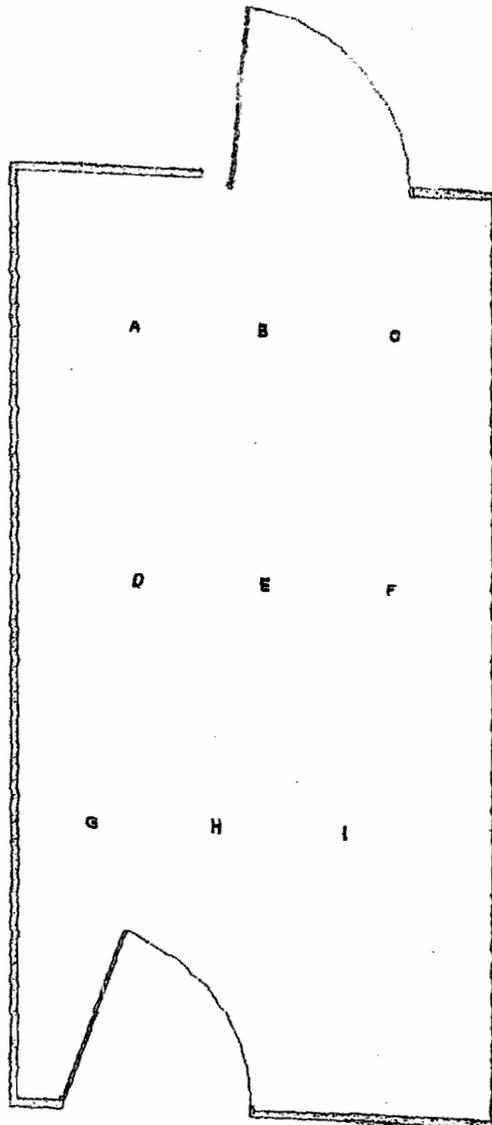

For any further information please do not hesitate to call the Nuclear Medicine Supervisor, Robert G. Stineman, CNMT, RT(NR), office number 302-421-4365, email address rstineman@che-east.org

Sincerely,

A handwritten signature in black ink, appearing to read "Julie A. Hester". The signature is fluid and cursive, with a long horizontal stroke at the end.

Julie A. Hester, MPM, BSN, RN
President and CEO

ALL ~~GLASS~~ STORAGE UNITS AND COLLATER TOPS
 WERE RELOCATED TO THE NEW HOT LAB.
 THIS AREA IS NOW A VACANT ROOM. IT WILL BE USED FOR
 STORAGE AND ACCESS TO THE MECHANICAL ROOM
 AFTER IT IS CLEARED FOR ROUTINE USE
