**Subject:** REQUEST FOR CLARIFICATION ON ADDRESS

License No.: SMB-1411  
Docket No.: 040-08814

Dear Mr. Brockington:

During an internal review we identified a discrepancy in the mailing address for the Department of Army, Yuma Proving Ground in Arizona Nuclear Regulatory Commission license. Typically, the address on the license and cover letter match, however the mailing address on the license is in Arizona and the mailing address on the cover letter is in Maryland. I understand that it is possible when working with military licensee's the differing address may be necessary to ensure the correspondence is received by the correct office. Please confirm if the addresses are correct or if they should be updated. If they need to be updated please provide the new address for the license and cover letter. Listed below is the address for the license and cover letter.

License address:

Department of the Army Commander  
U.S. Army Yuma Proving Ground  
Yuma Proving Ground, Arizona 85365-9124

Cover letter address:

Department of the Army

ATEC/DTC/YPG Radiation Safety Officer  
314 Longs Corner Road (CSTE-DTC-RI-S)

Please respond to this request by September 16, 2011.

Sincerely,
