Dear Dr. Khaleel:

This refers to the "Certificate of Disposition of Materials", dated July 7, 2011, and to our telephone conversation on September 15, 2011. During the telephone conversation, we discussed voiding your request at this time to allow you time to gather additional information for terminating your NRC license. We will void your request without prejudice to resubmission. Please submit the additional information as requested in the enclosed, "Request for Additional Information".

When you resubmit your request please state that the resubmission is additional information to **Voided Control 575589**. We will resume our review upon receipt of your response. Please note, that a "voided request" is an administrative procedure that puts your amendment request "on hold" until you reactive it by a written response. The "voided request" is regarded as "good" because it gives you time to prepare a quality response.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in cursive script that reads "William P. Reichhold".
