**Subject:** Abandonment of Well PW4 at Umetco Gas Hills, mine permit no. 349C

Nick,

I apologize for not getting back to you sooner. Both myself and Deb Harris have been travelling a fair amount lately and so we have not been able to talk about this matter until today. We have both reviewed Umetco's 6/9/11 request to abandon well PW4 and we concur with that request.

Umetco has also proposed to discontinue monitoring of Iron Springs. We view Iron Springs as an important local datum that should continue to be monitored. Given the limited suite of parameters that are analyzed, we do not feel this is an unreasonable request.

If you have any questions, please feel free to contact me.

Thanks

Mark
