Subject: RE: VCS ESP Application Revision

David:

As a pre-submittal process to provide Rev 1 by 3/31/11, lets plan to coordinate sometime in December to ensure that those sections of Phase B that contain confirmatory items in the NRC staff's SER have been or will be addressed as a part of the update. I speak for the safety review only in that some sections of the review will be at the tail end of the Phase B milestone by Dec.

Just something to think about planning wise.

Subject: VCS ESP Application Revision

Tekia – We are starting the work to prepare the Revision 1 submittal package of the VCS ESP application. The commitment is to provide Rev. 1 by March 31, 2012.

Can you refer me to any NRC guidance on how to format the revised application documents. For example, do we submit a complete Rev. 1 application including Parts that may not have changed, or can we just submit revised Parts of the application. Also, what format should be used for page revision numbering, should all pages be Rev. 1 even if they are not changed, or do we keep unchanged pages as Rev. 0, and are revision bars needed on pages to show a Rev. 1 change?

Thanks.
