SEP 27 AM 8:42

As of: September 27, 2011
Received: September 26, 2011
Status: Pending_Post
Tracking No. 80f2bd49
Comments Due: November 16, 2011
Submission Type: Web

Docket: NRC-2010-0029

Notice of Receipt and Availability of Application for Renewal of Columbia Generating Station Facility Operating License

Comment On: NRC-2010-0029-0015

Energy Northwest, Columbia Generating Station; Notice of Availability of Draft Supplement 47 to the Generic Environmental Impact Statement for License Renewal of Nuclear Plants and Public Meetings for the License Renewal of Columbia Generating Station

Document: NRC-2010-0029-DRAFT-0017

Comment on FR Doc # 2011-22415

9/1/2011
76 FR 54502 (4)

Submitter Information

Name: Chris Carol Arthur MD

Address:

3343 Ne 18th
Portland, OR, 97212

Organization: Heart of America

General Comment

Please do not use plutonium fuel in Energy NW Columbia Generating Station.

We must learn from the Fukushima disasters in Japan that Mother Nature can produce surprises like earthquakes, and the human error can wreak havoc.

Having nuclear reactors on the banks of the river courts disaster, which is preventable.

I do not want long life radioactive isotopes getting into the Columbia (Big River) which flows thru Portland, where I live.

We the people do not need the energy these plants might generate. There is so much energy on the grid sometimes that the windmills have to be disconnected.

Conservation is the healthy way to proceed, and we the people are willing to conserve.

We the people want all the long life radioactive filth at Hanford cleaned up now and placed in sites which can be maintained and supervised. No more leaking into the ground.

If small countries can do this, so can we.

Mother Earth might say about Hanford:

"What a mess! You people make this mess; now clean it up, all of it!"
