General Comment

As a resident of Portland, OR who stands to be effected if an accident occurs at Columbia Generating Station, resulting from an earthquake, human error, etc. I would like for the plant's license to NOT be renewed and instead would like to see it safely shut-down. Let Washington state lead the way in implementing safe, clean, green alternative energy solutions for it's electricity needs which would also result in the creating much needed jobs. Thank you.

Sincerely, Nancy Coscione
