Subject: Staff Changes, Plum Brook Reactor Facility, License No. TR-3, Docket No. 50-30 and License No. R-93, Docket No, 50-185,

This letter is to inform you of changes in the staff involved in the Plum Brook Reactor Facility Decommissioning Project.

- Mr. Keith Peecook has been promoted to the position of Associate Director, Code Q, Safety and Mission Assurance Directorate, effective October 9, 2011. He will be located at Glenn Research Center.
- Mr. Peter C. J. Kolb has been appointed as Acting Decommissioning Program Manager. He will have authority and responsibility for the PBRF and GRC Cyclotron decommissioning projects. He will be located Plum Brook Station and will continue to exercise responsibility as the Senior Project Engineer.
- Ms. Anita Liang is the new Director of Code Q, Mission Assurance Directorate. Mr. Thomas Hartline is now Deputy Director of Engineering located at Glenn Research Center.

Should you have any questions or need additional information, please contact Mr. Keith Peecook, NASA Plum Brook Station, 6100 Columbus Avenue, Sandusky, OH 44870, at (419) 621- 3277.

A handwritten signature in black ink, appearing to read "Keith M. Peecook".

Keith M. Peecook
Program Manager
