SUBJECT: QUALITY MANAGEMENT SYSTEM (QMS), REVISION 1

Dear Mr. Liparulo:

Your proposed Revision 1 to the Westinghouse Quality Management System (QMS) document was submitted for NRC review by your letter of September 15, 1995. QMS, Revision 1, presents a description of the Westinghouse quality assurance program and contains the commitments of WCAP 8370, Revision 12A, its predecessor, and of the International Organization for Standardization (ISO) 9001. QMS, Revision 1, is applicable to the Energy System Business Unit (ESBU) and the Power Generation Business Unit -- Westinghouse Pensacola Plant.

Your original QMS, Revision 1, submittal was supplemented by a second submittal dated January 9, 1996 which provided clarification pages and addressed recent organizational changes. An additional page replacement submittal was provided by facsimile on February 14, 1996. Based on our review of the information provided, we have concluded that QMS, Revision 1, continues to meet the requirements of 10 CFR 50, Appendix B, and can be utilized to control the quality of items and services provided by Westinghouse ESBU and the Pensacola Plant.

Please incorporate a copy of this letter into the published edition of QMS, Revision 1, and forward one copy to the NRC in accordance with 10 CFR 50.4. Any questions on the above should be directed to Walter P. Haass of my staff on (301) 415-3219.

Sincerely yours,

Suzanne C. Black
