

(Artesia, 2010) Artesia City of Artesia Water and Wastewater Department. Personal communication between M. Stroud, City of Artesia Water and Wastewater Department, and P. Baxter, TtNUS. September 28, 2010.

Fluorine Extraction and Depleted Uranium Deconversion Plant Environmental Impact Statement

Telecommunication Record

Date of Call: September 30, 2010

Purpose of Call: Artesia wastewater treatment system capacity

For SES: Pixie Baxter, Tetra Tech NUS, 803 641 4946

Called: Mike Stroud, Artesia Water and Wastewater Management Department, 575 513 1870

Summary of Discussion: Mr. Stroud confirmed that the permitted wastewater capacity of the Artesia Wastewater Treatment facility is 3.0 MGD (million gallons per day) and that average daily wastewater flow is 1.2 to 1.3 MGD. The city limits of Artesia bound the district lines. Mr. Stroud feels the 2009 Census Population estimate of 11,208 residents for Artesia is too low and that the Artesia population is 14,000 residents.

Action Items: None
