Farrah Gaskins**Telephone No.** Calling from 256-235-6797**Subject:** Notification that they have not yet received material(NOTE: This will be used as the
Documents Title in ADAMS)

A new license for the above mentioned licensee was issued in May 2011. The RSO contacted me to inform me that because of budget cuts and other issues, the project that the licensee had intended to start under the license has been postponed and they had not yet received material. Mr. Curry explained that it could be some time before they expect to begin the project. He was calling to inform us to ensure that we would not make an unnecessary trip to inspect since no materials were there. I explained to him that since it was the initial inspection of a new license that the inspector would announce at which time, he could update them on the status of the project.
