**SUBJECT: Reactivation of review activities for NuScale Power Pre-Application Project
 (NRC Project: 0769)**

We are pleased to inform you that NuScale wishes to resume its Design Certification pre-application project interactions with the NRC. NuScale has been able to satisfactorily resolve the financial issues that forced the suspension of the project in March. We therefore formally request that the NRC reactivate the project and resume review activities on the NuScale design. To assist the restart process, NuScale will arrange a meeting with NRC Staff at the earliest opportunity to more specifically coordinate the resumption of work.

Please feel free to contact me at 541-207-3931 if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'E. Wallace'.

Edward G. Wallace
Senior Vice President, Regulatory Affairs
