SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 54-27692-01

Dear Mr. McCullough:

By NRC Form 313 dated April 29, 2011, Sanjel Corporation requested the U.S. Nuclear Regulatory Commission (NRC) renew NRC radioactive materials License Number 54-27692-01. The submitted NRC Form 313 stated a new mailing address to a different state. The new address triggered a change in the license number. Therefore, License Number 54-27692-01 is hereby terminated concurrently with the issuance of new License Number 05-29427-01.

Please find enclosed Amendment Number 09 to License Number 54-27692, authorizing the license termination. An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(20)(ii).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have questions or require clarification on any of the information stated above, please contact me at 817-276-6596.

Sincerely,
