Subject: HONEYWELL METROPOLIS WORKS (DOCKET NO. 40-3392) –
REQUEST FOR EXTENSION OF EXEMPTION FROM
DECOMMISSIONING FINANCIAL ASSURANCE REQUIREMENTS
CONTAINED IN LICENSE CONDITION 27 IN SUB-526, ISSUED ON
MAY 11, 2007.

- References:
1. Letter dated August 22, 2008, from Director, Office of Nuclear Material Safety and Safeguards (NRC) to M. Tillman (Honeywell International, Inc.) granting Honeywell International Inc. an exemption from decommissioning financial assurance requirement contained in License Condition 27 on SUB-526.
 2. "Request for Exemption from Decommissioning Financial Assurance Requirements," Attachment 1 to letter dated December 1, 2006 from J. Tus (Honeywell International, Inc.) to Director, Office of Nuclear Material Safety and Safeguards (NRC)

By letter dated August 22, 2008, NRC granted Honeywell International, Inc. (Honeywell) a one-year exemption from a portion of the financial test in 10 C.F.R. Part 30, Appendix C which would have required that Honeywell's year-end tangible net worth be equal to at least ten times its total decommissioning liabilities. The exemption permitted Honeywell to include goodwill in the determination of tangible net worth and was contained in license condition 27 in SUB-526. On March 23, 2009, Honeywell filed with the NRC a letter in support of its use of the self-guarantee financial test for the fiscal year ended December 31, 2008 in which it demonstrated that its net worth, as measured in accordance with the exemption, was more than 10 times its current decommissioning cost estimates.

In accordance with 10 C.F.R. § 40.14, "Specific Exemptions," and 10 C.F.R. § 30.11, "Specific Exemptions," Honeywell now requests that the NRC extend the exemption from the same portion of the financial test in 10 C.F.R. Part 30, Appendix C until the earlier of (1) May 11, 2010 and (2) the effective date of a final rule amending 10 C.F.R. Part 30 consistent with the proposed rule published in the Federal Register on January 22, 2008.

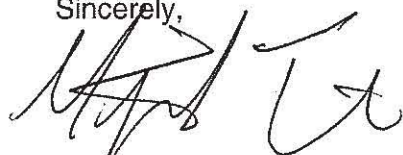

The rationale for seeking an extension of the exemption granted to Honeywell in the NRC's August 22, 2008 action is largely the same as was set forth in Attachment 1 to

the letter dated December 1, 2006 from J. Tus (Honeywell International, Inc.) to Director, Office of Nuclear Material Safety and Safeguards (NRC) entitled "Request for Exemption from Decommissioning Financial Assurance Requirements". Specifically, inclusion of goodwill in the determination of tangible net worth in the financial test in 10 C.F.R. Part 30, Appendix C satisfies the intent of the decommissioning funding requirements without imposing a significant and unnecessary burden on Honeywell. The exemption should be continued because it is authorized by law, does not endanger life or property or the common defense and security, and is otherwise in the public interest. Further, continuing the exemption will not result in any significant impact to the environment.

The NRC should also grant Honeywell's request for an extension to the exemption granted in August 2008 because the exemption is entirely consistent with a proposed rule published on January 22, 2008. The proposed rule includes, *inter alia.*, an amendment to 10 C.F.R. Part 30, Appendix C that would allow the licensee to use intangible assets, if the licensee also has an investment grade bond rating. As set forth in the letter submitted by Honeywell on March 23, 2009, Honeywell currently maintains an investment grade bond rating of "A" from Standard & Poor's.

Honeywell continues to be fully-committed to the safe and proper operation of our Metropolis Works Facility, including providing financial assurance for decommissioning funding. This is consistent with our corporate commitment to the continued safety of our workers and the public, and the protection of the environment. This letter does not contain any new regulatory commitments.

Sincerely,

Mitch Tillman
Plant Manager
