Tier 1 Changes Explanation/Basis Document
Tier 1, Section 2.5.5

Item No.	Explanation/Basis for Change
Design Description Section 2.5.5.1	
A	Editorial corrections.
B	Deleted information not required for the Tier 1 Design Description or ITAAC as discussed in Tier 2 Section 14.3.
C	Deleted information that is redundant to Tier 1 Section 2.5.1 Design Description.
D	Note 1.
E	Note 1.
F	Note 1.
G	Note 1.
ITAAC Table 2.5.5-1	
1	DC, ITA, AC − Generic changes to ITAAC for functional arrangement to provide clarity and consistency. [RIS, Scope, 2nd bullet.] This change alters the response to RAI 181, Revision 0, 14.03.05-06.
2	DC, ITA, AC − Deleted ITAAC as it is redundant to ITAAC #1. This change alters the response to RAI 181, Revision 0, 14.03.05-06.
3	DC, ITA, AC − Deleted ITAAC because it is redundant to ITAAC 2.5.1-6, #26. This change alters the response to RAI 181, Revision 0, 14.03.05-06.
4	DC, ITA, AC − New ITAAC to ensure the key design feature of the PCMS relating to control of safety-related components via Operational VDU is addressed.
Table 2.5.5-1	
H	New table to support functional arrangement ITAAC #1.

Note 1: Revised to provide consistency between the Design Description (DD) and the Design Commitment (DC) in the ITAAC table. Revised text to include only the necessary attributes for ITAAC.

Note 2: Text relocated within the DD section to align with the sequence and numbering of the corresponding DC in the ITAAC table.
