Dear Mr. Keppler:

MONTICELLO NUCLEAR GENERATING PLANT
Docket No. 50-263 License No. DPR-22

The following is submitted to inform you of the status and schedule of our response to IE Bulletin 79-01B.

In our April 17, 1980 letter, we stated that the revised master list of systems and components and the accident condition profiles for equipment outside containment would be submitted by May 1, 1980. Subsequently, in a telephone conversation with Mr. J. Hughes of your office, a revised schedule was agreed to whereby we will submit, by June 1, 1980, the revised master list, the service condition profiles, and, in addition, the component evaluation worksheets for all components with the qualification data available at that time.

Yours truly,

D. E. Gilberts
Vice President
Power Production
