Subject: IE Bulletin 79-14, Inspection Plan Revision
Monticello Nuclear Generating Plant

Dear Mr. Keppler:

Enclosed are two (2) copies of NUTECH Report NSP-37-005, Revision 1, titled "IE Bulletin 79-14, Safety Related Piping Systems, Inspection Plan, Monticello Nuclear Generating Plant." The revised document incorporates the requirements of the supplement to IE Bulletin 79-14 that was issued August 15, 1979, and modifies the inspection phase for several segments of piping. The document is being transmitted to you at the request of Northern States Power Company.

Sincerely yours,

A handwritten signature in cursive script that reads "A. B. Higginbotham".

A. B. Higginbotham, P.E.
Engineering Manager
