Mr. Glenn T. Seaborg, Chairman
Atomic Energy Commission
Washington, D.C. 20545

Dear Mr. Seaborg:

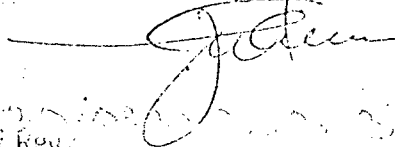

As an interested citizen of Minnesota, I am trying to assess the merits of the arguments for and against NSP's present plans for its Monticello and Prairie Island nuclear generating plants. From my observations, it appears that the Atomic Energy Commission has approved the present plans while the Minnesota Pollution Control Agency has not.

Kindly advise as to the following:

1. The reason for the difference in opinion.
2. The number and location of other nuclear generating plants which are operating in the U.S. which are similar to those of NSP and which have been built and operated under AEC specification and control.
3. Other information which would be helpful to better understand and appreciate AEC's concern for health and safety of our Minnesota citizens.

Thank you.

Sincerely,

EJH:mj
