NORTHERN STATES POWER COMPANY

MINNEAPOLIS, MINNESOTA 55401

May 22, 1975

Mr. A. Giambusso, Director  
Division of Reactor Licensing  
U. S. Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr. Giambusso:

MONTICELLO NUCLEAR GENERATING PLANT  
Docket No. 50-263 License No. DPR-22

Schedule for Submittal of Prompt  
Relief Trip Information and Installation

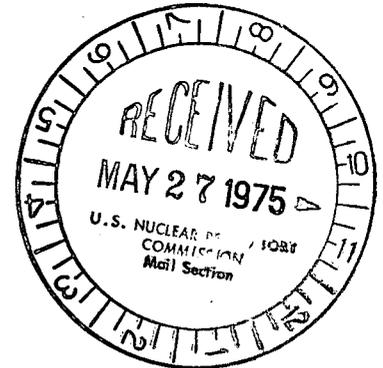

This letter is in response to Mr. Goller's letter of September 17, 1974, and to Mr. Ziemann's letter of April 16, 1975. These letters pointed out the need for additional information necessary prior to licensing approval of the Prompt Relief Trip (PRT) system and for information regarding the installation and implementation of the PRT system.

We are aware of the issues associated with obtaining your favorable assessment of the PRT system. General Electric has kept us informed of the work being done to resolve the outstanding issues that are presently open items appearing on the Monticello docket.

In this regard General Electric has reported that these issues apply not only to Monticello but to all plants contemplating application to the PRT system. For this reason General Electric is preparing to submit to you, a generic document based on our January 23, 1974 PRT submittal that will include a response to the outstanding issues. Submittal of the generic document is planned for mid-summer 1975.

Preliminary indications are that for the last two to four months of Cycle 5, implementation of PRT at Monticello may be a desirable option. We have accordingly established the following target dates for planning purposes.

JUNE 1976.....	Resubmit or amend PRT description and safety evaluation
JANUARY 1977.....	Receive total approval of PRT and begin installation
JUNE 1977.....	Complete installation and implement the PRT system

5729

NORTHERN STATES POWER COMPANY

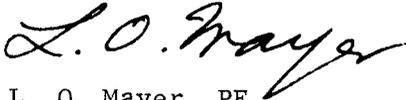

Mr. A. Giambusso

2

May 22, 1975

We will keep you informed of changes in the schedule as the final Cycle 5 calculations are completed and the various alternatives in the PRT implementation schedule are evaluated.

Yours very truly,

L. O. Mayer, PE  
Manager, Nuclear Support Services
