December 27, 1973

Mr. A. Giambusso
Deputy Director for
Reactor Projects
Office of Regulation
U S Atomic Energy Commission
Washington, D C 20545

Dear Mr. Giambusso:

MONTICELLO NUCLEAR GENERATING PLANT
Docket No. 50-263 License No. DPR-22

Anticipated Transients without Scram (ATWS)

Your October 19, 1973 letter on this subject requested that we advise you by January 1, 1974 of the approach we intend to take dealing with ATWS.

Review of your letter and the Regulatory staff's document on anticipated transients without scram (WASH-1270) indicates that the Monticello Nuclear Generating Plant is in classification I.C of the ATWS position statement. We intend to follow the Section C approach (WASH-1270, Appendix A) and submit the analysis of the consequences of ATWS by October 1, 1974.

We are currently working with General Electric on performance of the necessary analysis and intend to submit a report which addresses the requirements of Section II.C on the schedule indicated above.

Yours very truly,

A handwritten signature in cursive script that reads "L. O. Mayer".
