Subject: DB teleconference request

Cliff:

Below is a list of the topics we'll like to discuss with FENOC early next week if possible. Let me know when can we have the teleconference(s) for these.

- RAI 3.3.2.14-1 (8/26/2011 response)
- Plant-Specific Collection, Drainage and Treatment Components Inspections AMP-missing items based on LRA amendments
- B.2.22-6 (8/26/2011 response) - Will perform core bores in 2014 and if required in 2017. Why core bore in 2014?
- B.2.22-7 (8/17/2011 response) -Added enhancement to monitor penetrations before PEO - frequency not specified. Need to discuss frequency and PEO 2017.
- B.2.25-7 (8/17/2011 response) - On Attachment 2 page 11 of the response FENOC stated "*All of the samples had tritium concentrations lower than observed from the July 28, 2004, sampling.*" The staff would like to know what was the observed tritium level of July 28. 2004.
- B.2.39-11(8/26/2011 response) -Information acceptable except implementation by April 2017 not acceptable.
- RAI 4.6-1 (8/17/2011 response)
