Susan informed me that the Radium they possessed was disposed of through Radiac Research, Corp. in 2007. She contacted Karen Gardner, Facilities Manger, who provided the Uniform manifest from the shipment that went out August 1, 2007. The manifest showed 0.1 uCi of Ra226 and 0.038 mCi of U238 was shipped out. She confirmed that they do not possess any radioactive materials at this time.
