Name of Licensee: Integrity Testlab, Inc.

Name of Participant(s): William Batting, RSO  
Scott Wilson, RI Health Physicist

Telephone No. 302-325-2365

Subject: Request for Information, RE: Supplemental info letter dtd Oct. 17, 2011, and additional information regarding the report dtd Sept. 21, 2011.

(NOTE: This will be used as the Documents Title in ADAMS)

The RSO was called to ask him if there was a reason to withhold their letter (dated October 17, 2011) from public disclosure as marked on the letterhead. The RSO said that he marks all correspondence to NRC with the banner "Withhold From Public Disclosure In Accordance with 10 CFR 2.390," and that he has no objection to NRC marking the statement with a strike through and making the document publically available.

Mr. Batting was asked about the values used in his dose exposure estimates documented in the licensee's report dated September 21, 2011. Specifically, he was asked what source he used to determine the half-value layer for steel. He said he used the manufacturers Operating and Maintenance Manual for the Sentinel 880 Series Source Projector dated May 27, 2007. Mr. Batting was also asked to clarify the values provided in the table, row A, second column, for the distance travelled by the source. Mr. Batting said the number should be 4" instead of 18," the total distance from the shielded position to the second calculation point (1b on Exposure 1).

**Action Required: Save this telephone record in ADAMS under inspection folder 2011-003 for the license & docket above.**
