Dear Dr Morris:

MONTICELLO NUCLEAR GENERATING PLANT E-5979
Containment Purging Information

Your letter of October 12, addressed to our Mr Dienhart, requested information on the effects of purging containment after a postulated design basis loss-of-coolant accident.

Production of the information requires substantial investigative and computational efforts.

We are proceeding and our objective is to supply the information to you in the later part of January 1972.

Yours very truly,
