MONTICELLO NUCLEAR GENERATING PLANT
Docket No. 50-263 License No. DPR-22

Submittal of Revision No. 1 to the Updated Safety Analysis Report (USAR)

Pursuant to 10CFR 50.71(e) we are submitting 13 copies of Revision No. 1 to the Updated Safety Analysis Report (USAR) for the Monticello Nuclear Generating Plant. This revision updates the information in the USAR for the period from November 1, 1981 through October 31, 1982.

Exhibit A contains a description and a summary of the safety evaluation for changes, tests and experiments made under the provisions of 10CFR 50.59 during the period January 1, 1982 to October 31, 1982 (our last annual report included changes up to December 31, 1981). In previous years this information was reported in the Annual Operating Report.

Exhibit B contains the USAR page changes and instructions for entering the pages. Included in Exhibit B, for inclusion in the USAR, is Northern States Power Company's Operational Quality Assurance Plan in compliance with 10CFR 50.54. Past Annual Operating Reports have described changes up to and including Revision 6 to the Plan. Changes included in Revisions 7 and 8 to the plan are described in Exhibit A (Item 29 page A-11) of this letter.
