Docket No. 50-263 License No. DPR-22

License Amendment Request Dated April 26, 1985
Administrative Changes

Attached are three originals and 37 conformed copies of a request for a change of Technical Specifications, Appendix A, of Operating License DPR-22. Also attached is a check in the amount of \$150.00 for the amendment application fee.

The proposed changes are being submitted to incorporate the recommendations of Generic Letter 84-13, to satisfy a previous commitment and to incorporate miscellaneous administrative changes. All changes are administrative in nature except one, requested by the NRC Staff, which increases a surveillance frequency. For this reason they were consolidated into one amendment request.

Exhibit A contains the proposed change, reasons for change, and significant hazards evaluations. Exhibit B contains revised Technical Specification pages showing the proposed changes.
