MONTICELLO NUCLEAR GENERATING PLANT
Docket No. 50-263 License No. DPR-22

Revision No. 2 to License Amendment Request Dated August 30, 1984
Clarification of Radiation Monitor Requirements

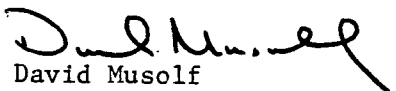

Enclosed are three originals and 37 conformed copies of a revision to our License Amendment Request dated August 30, 1984. No additional licensing review application fee is necessary since a fee accompanied the August 30, 1984 submittal

The revision consists of corrections to pages 68, 70 and 198m included in Exhibit B of the August 30, 1984 submittal as revised on November 8, 1984. These pages have been corrected as requested per conversation with NRC Project Manager on August 6, 1985.

These pages have been corrected as requested per our project manager as follows:

- Page 68 - add first 3 paragraphs that were inadvertently deleted
- Page 70 - delete table number (removed in previous change)
- Page 198m - change (1) to (*) in footnote ** b.

Revised pages 68, 70 and 198m are attached. All other portions of our August 30, 1984 and November 8, 1984 submittals are unaffected by this correction.
