Tucson, AZ 85756

SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

Dear Mr. Corwin:

In the letter dated April 5, 2011, you contacted the U.S. Nuclear Regulatory Commission and indicated that you wished change your mailing address to Tucson, Arizona and that your previous location at 1163 Maple Street, Farmington, Missouri was free of radioactive materials. As we discussed by telephone, we will issue you a new NRC license (under separate correspondence) for temporary jobsites only at your Arizona address and terminate your NRC Missouri license 24-32685-01. The NRC staff has reviewed the information you submitted and based on its review, has concluded that all licensable radioactive material has been removed from your facility in Farmington, Missouri. Based on these conclusions no further remediation or actions with respect to NRC regulated material is required. Your Missouri facility is suitable for unrestricted use and NRC license number 24-32685-01 is hereby terminated.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

If you have any questions, please call me at (630) 829-9839.

Sincerely,

A handwritten signature in cursive script that reads "William P. Reichhold".

William P. Reichhold
Materials Licensing Branch

License No. 24-32685-01
Docket No. 030-37657

Enclosure: Amendment No. 3
