Regulatory Docket File

Mr D K Davis, Acting Director  
Operating Reactors Branch #2  
Division of Operating Reactors  
U S Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr Davis:

MONTICELLO NUCLEAR GENERATING PLANT  
Docket No. 50-263 License No. DPR-22

Appendix I Filing  
Supplement 2 - Revised

Our letter of September 15 submitted Supplement 2 to our Appendix I filing.

Subsequently, an error has been discovered in the computer program used to calculate the release of individual noble gases from the gross activity measurements. There is no change in the gross release levels, but merely a change in the distribution of isotopic levels that make up the gross activity.

A number of pages in the supplement require revision and for convenience, we are submitting with this letter 40 copies of the complete supplement appropriately revised.

Yours very truly,

A handwritten signature in cursive script that reads 'L. O. Mayer'.
