Subject: FW: ME7110 - Kewaunee Chi-over-Q - Acceptance Review RAL items - Conference calls of October 20, 25, 2011

A conference call took place on October 20, 2011, between personnel from Dominion and Kewaunee Power Station with USNRC personnel regarding a set of RAI items for which responses were needed within the acceptance review phase of TAC ME7110, identified by the short title "Chi-over-Q"

The agenda for this conference call was to discuss for clarification the items requested by email message, as documented in ADAMS Accession Number **ML11290A148**.

Personnel involved in the October 20, 2011 phone call:

USNRC: Karl Feintuch, Donnie Harrison, Mark Blumberg

Kewaunee: Tom Breene, Brian O'Connell, John Holly, Jack Gadzala

Innsbrook: Doug Gilliat, Alan Ford, Bill Kohlroser, Craig Sly

Millstone: Bill Eakin (who works from Millstone but does a lot of fleet support work, in this case for Dominion and Kewaunee)

Donnie Harrison made clarifying remarks for RAI 7, Mark Blumberg spoke to RAI items 1 through 6. Clarification was achieved for RAI items 1 through 7, less 2 and 4, which required further enquiry within the NRC by Mark Blumberg.

On this basis RAI items 1, 3, 5, 6, and 7 were deemed by consensus to be clear and to which the licensee would respond by 11/8/2011. A follow-on discussion would ensue when further information pertaining to RAI 2 or RAI 4 was available.

The follow-on discussion took place on October 25, 2011, pertaining to RAI 2.

Personnel involved in October 25, 2011 phone call:

USNRC: Karl Feintuch, Mark Blumberg

Kewaunee: Tom Breene, Brian O'Connell

Innsbrook: Bill Kohlroser, Craig Sly, Alan Ford, Doug Gilliat, Bill Eakin (who is normally at Millstone, but was present at Dominion's Innsbrook facility this week).

The agenda was a discussion of RAI 2 to clarify the expectations of its content and of an adequate response by the licensee. RAI 4 will be the topic of a follow-on call when Reviewer Blumberg makes the request.

As a result of the discussion, RAI 2 joined RAI items 1, 3, 5, 6, and 7 as being clear and to which the licensee would respond by 11/8/2011.
