Basis for determination of fee class:

This License Amendment Request contains proposed Technical Specifications for low voltage and loss of voltage protection modifications requested by the NRC Staff. In addition, a number of changes that are administrative in nature, having no safety significance, are requested.

The requested low voltage and loss of voltage protection Technical Specification requirements involve a single safety issue. The changes proposed conform to guidance provided by the NRC Staff in a letter dated June 3, 1977 from D K Davis, Acting Chief, Operating Reactors Branch #2, USNRC, to L O Mayer, Northern States Power Company.
