REGULATORY DOCKET FILE COPY

NORTHERN STATES POWER COMPANY

MINNEAPOLIS, MINNESOTA 55401

November 22, 1977

Mr Victor Stello, Director
Division of Operating Reactors
c/o Distribution Services Branch, DDC, ADM
U S Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr Stello:

MONTICELLO NUCLEAR GENERATING PLANT
PRAIRIE ISLAND NUCLEAR GENERATING PLANT
Docket No 50-263 License No. DPR-22
50-282 DPR-42
50-306 DPR-60

Submission of NSP Operational Quality Assurance Plan, Rev. 2

Our letter dated September 30, 1976 transmitted the NSP Operational Quality Assurance Plan, Revision 1, dated September 24, 1976. Subsequent to its submittal, we have had discussions and a meeting with the Regulatory Staff on additional information that was needed to complete their review of the plan. The Operational Quality Assurance Plan has been revised, and 40 copies of Revision 2, dated November 15, 1977 are submitted herewith for the dockets listed above. The Operational Quality Assurance Plan has been written for use as an internal document with a detailed description of the existing QA Program, including many references to titles, positions and administrative control directive numbers. This may require more frequent and extensive revision than a summary description document which might have been prepared for the NRC review process alone. On the basis that the Plan can be revised, as required, through an internal review process, and to avoid preparation of a separate summary description for NRC needs, we have chosen to submit the detailed Plan for your review needs.

Yours very truly,

L O Mayer, PE
Manager of Nuclear Support Services
