**Subject:** Request for Additional Information for Amendment Requests

Licensee: St. Francis Hospital  
License No. 07-16862-01  
Docket No. 030-11759  
Mail Control Nos. 576129 & 576234

Dear Mr. Stineman,

We need the following additional information to support amendment of your license:

1. Please confirm that Mr. Perna has the full support of St. Francis Hospital management for exercising control over the radiation safety program.
2. Your facility is licensed for 10 CFR 35.100-35.400 materials. Therefore, the RSO on-site time of 1-2 hours per quarter does not appear sufficient to oversee a diagnostic and therapy program. 1-2 hours/month may be sufficient. Please re-assess your radiation safety program oversight and submit the requisite number of hours that you plan to have the RSO on-site to oversee all licensed activities.
3. Please submit a copy of the board certification for Dr. Dutka indicating that he is "AU Eligible." In addition, please submit a completed preceptor statement. A blank statement may be found at [http://www.nrc.gov/reading-rm/doc-collections/forms/nrc313a\(aud\).pdf](http://www.nrc.gov/reading-rm/doc-collections/forms/nrc313a(aud).pdf)

You may fax this information to my attention to 610-337-5269. Please refer to Mail Control No. 576129 when providing your response for items 1 and 2 and Mail Control No. 576234 when providing your response to Item 3. In addition, please respond to this email to confirm that you received my email. If we do not receive a response from your facility within 30 days, we will assume that you no longer require the changes and will void your request.
