Subject: Cancellation of Exam 50-166/OL-11-01 at UNIVERSITY OF MARYLAND

Carole,

The University of Maryland exam, scheduled for April 2011 (CORPORATE NOTIFICATION LETTER, 50-166/OL-11-01), has been postponed more than once due to instruments malfunction at the reactor. It appears that this exam will not take place in the near future. I've deleted it from our schedule until the licensee comes in with another request. Please place this email in ADAMS to close the loop.

Thanks

Patrick Isaac
