This letter is written in response to your request for additional information dated 10/27/11. All responses are in order of request.

1. We confirm that no PET isotopes are used at the facility.
2. We confirm that safe response to spills in accordance with 10 CFR 20.1101 will be in written form.
3. The section identified as the restricted area is one story thus there is nothing above or below.
4. The originally submitted diagram was a draft. The diagram submitted on May 16, 2011 is correct. The restricted area was not moved therefore no close out surveys are required.

Thank you for your attention to this matter. If you have any questions, please contact Sharon L. Long, NPC at 888-456-5255 or slong@nationalphysics.com

Sincerely,

H. James Stanton, M.D.
