**RE: Change of RSO and Amendment to NRCS License No. 47-23065-01**

Mr. Lodhi,

This letter serves as a request for an amendment to our current NRCS License No. 47-23065-01. We have fifteen (15) Troxler Model 3400 series portable nuclear density gauges on our current license, and have purchased four (4) more additional nuclear gauges. The delivery date of Troxler Nuclear Gauge Serial #64817 and #64820 was June 23, 2011 and Serial #65007 and #65008 was September 1, 2011.

We also want to change our Radiation Safety Officer (RSO) from myself to Andy Kincell, an employee with Thrasher Engineering since 2005. Mr. Kincell is well versed in the NRC rules and regulations as they pertain to the use of our Troxler nuclear density gauges. Mr. Kincell is certified in radiation safety with certificate enclosed. He has taken over the acting role as Manager of the Materials Testing Division and is the logical person to act as Radiation Safety Officer (RSO).

If you have any questions or concerns, please feel free to call.

Sincerely,

THRASHER ENGINEERING, INC.

Aaron Denham  
General Manager of Field Services / Radiation Safety Officer
