

November 8, 2011

Dr. Said Abdel-Khalik, Chairman  
Advisory Committee on Reactor Safeguards  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

SUBJECT: RESPONSE TO THE ADVISORY COMMITTEE ON REACTOR SAFEGUARDS  
REPORT ON ENHANCING THE FUEL CYCLE OVERSIGHT PROCESS

Dear Dr. Abdel-Khalik:

During the 587<sup>th</sup> meeting of the Advisory Committee on Reactor Safeguards (Committee), October 6–8, 2011, the Committee completed its review of the staff's proposal to enhance the U.S. Nuclear Regulatory Commission's (NRC's) fuel cycle oversight process (FCOP). The NRC staff appreciates the Committee's thorough review of the proposal to enhance the FCOP. In particular, the NRC staff found the Committee's review of the proposed cornerstones to be helpful as it developed the recommended option in SECY-11-0140, "Enhancements to the Fuel Cycle Oversight Process," dated October 7, 2011 (Agencywide Documents Access and Management System Accession No. ML111180705).

The NRC staff recognizes the Committee's commitment to safety and looks forward to future discussions with the Committee after receiving Commission direction on SECY-11-0140.

Sincerely,
