Dave –

I was also informed that the LOLA MSD (Part 9) failed document processing because “fonts were not embedded.”

Dave –

The e-mail below better describes what I was trying to explain over the phone. I believe a similar issue occurred with the recent Lee COLA revision, so the attachments may be useful in resolving this.

FYI

As of right now this COLA Submission cannot pass the quality control review in its current state. The Reference Document with Document Number “APP-GW-GL-700.DCD.P” and Revision Number “19” was not found in ADAMS. The Westinghouse submission that Progress Energy is referencing the packing slip contained document number “APP-GW-GL-700.DCD.P” and the cover letter used “APP-GW-GL-702.DCD.P”.

- a. APP-GW-GL-700 contains SUNSI information to be withheld from public disclosure

b. APP-GW-GL-702 is the redacted version which can be released to the public.

Westinghouse previously forwarded a request to correct the submission as seen below. So, Therefore the Reference Document should be listed as Document Number "APP-GW-GL-702.DCD.P" and Revision Number "19".
