The answer is still "we have no one available". Tina's first day is Monday and we've been holding the SOARCA uncertainly analysis work for her to pick up . So she is already behind before she even shows up!

I've attached the green ticket.

I don't recollect the green ticket or the question being asked in RES but we should be able to examine the request on this end. The statement that OCAA has refined the time estimate - hopefully to a shorter duration - may be helpful.

Jimi T. Yerokun

Three months ago, we had two. One retired. The one we trained to backfill him, was just promoted to RES. Depending upon the magnitude\duraion of effort, Jimi (her current supervisor) may support.

Jimi.... thoughts?

Sunil

Don't you have someone who does SAMAs?

-----Original Message-----From: Andersen, James Sent: Thursday, September 09, 2010 9:12 AM To: Sanfilippo, Nathan; Giessner, John; Kotzalas, Margie; Frazier, Alan Cc: Jaegers, Cathy; Mamish, Nader Subject: FW: ACTION: G20100567

FYI. OCAA is requesting a subject matter expert (severe accident mitigation alternative -SAMA analyses) and we have asked NRO, NRR, RES, and NMSS if they have someone who can support the request. This is the second attempt to try to identify a staff member and OCAA has refined the time estimate and skills needed. Please make your offices aware of this request when you meet with them during your next office management meeting and that OEDO is trying to support OCAA. Thanks.

Jim A.

Attached is the action green ticket for NRO, RES. NRR and NMSS. The ADAMS version will be sent after DPC processes.
