Hello

Attached is a revised draft that Dan and I edited to address all comments. If the lead divisions are ok, then I will alert Brian to the revised CA note.

If you can provide comments by 2pm today, then Alan will help us move the CA note .
Thanks!

Pat:
Regarding the SOARCA comments:

- 1) I see no issues with the changes to the first paragraph.
- 2) I'm not aligned with the changes to the 2nd paragraph. Its appears to be more confusing to state that we propose to combine a PRA paper that we are extending to June 2011 with a SOARCA paper due in October 2010.
- 3) SOARCA has two outstanding WITS that I am aware of. 200700117, "Provide the results ...with a recommendation on whether continuing as originally described in SECY-05-0233 is necessary to achieve its objectives," and 200800373, "Provide the results of the peer review of the PB and Surry methodology and approaches in SOARCA." I know that both tickets are still open and due on 10/29/30. We have requested an extension until June 30, 2011. I don't know of any open Communication Plan ticket that Kathryn is referring to in her comment.

- 4) From a SOARCA perspective, I see no issues with the rest of the changes.

Please let us know if you need more from us.

Jimi T. Yerokun

Pat,
DRA suggestions:

1. Change due date back to Feb (7) because that's the date it is due to the Commission. (EDO suspense date is Jan 31. Also, the Chm office asked if this due date could be moved to Jan to support a Feb Commission meeting, but this was not done to our knowledge since we communicated verbally our thinking about the extension request)
2. The extension request is expected to go up later this month following further internal collaboration on the content of the combined paper. We were asked to provide input to this CA note in advance of the briefing to Commissioner Magwood tomorrow.
3. Move the last paragraph up to be part of the 2nd paragraph.

Let us know if we can provide further input.
Thanks,
Doug

Hi Pat. Thanks very much for sending this CA note, and thanks to Jimi for helping explain a few things. I'm sending it back for a little work. I understand what you are trying to do in the note, however the dates and combinations of actions are very confusing. Please see my notes...there is an extension discussed that was never approved and one extension request not yet sent up by RES. As a side note there is an open task for the Communication Plan that was never closed.

Please let me know how I can help. Alan Frazier can also assist if I am not at my desk – we want to be sure and get this note up on your time schedule.

Thanks.
