Ok thanks. I'd prefer Jason focus on the outstanding analyses and document reviews if you and Richard can do this without him.

Hi Kathy,

Keith Eckerman is supporting us on a couple of SOARCA tasks.
He is (or will be, and not necessarily in this order): (1) working with Nate Bixler to provide distributions for some health effects parameters in the uncertainty study, and (2) providing a write-up of how he came up with the dose factors for the SOARCA baseline analysis (which currently is not documented).

Richard and I plan to meet with him, and maybe Jason too.

Best,
Tina

Also what is SPB talking to him about and who from SPB is meeting with him? Don't want them diverted from mainline SOARCA work.

Please find time to introduce him to Jennifer and me - nothing formal. I will try to attend the brown bag.

Subject: FYI: KEckerman visit next week

Stephanie,

Keith Eckerman will be visiting Church Street next Wednesday and Thursday to make his Brown Bag presentation and meet with HEB and other NRC staff.

I have scheduled the following meetings with Keith on Thursday:

- 11:00 to 12:15 with NSIR regarding biokinetic modeling
- 1:00 to 3:00 with SPB/DSA regarding SOARCA

Currently, his schedule is open on Wednesday (except 10:30 to 1:30 for the Brown Bag) and Thursday morning to meet with you and the HEB staff on projects (PIMAL, Toolbox, Effluent Dosimetry, etc) and other topics.

I'd be pleased to coordinate schedules for this visit – just let me know!

Tony
