Kathy – I asked Emily to schedule a meeting for tomorrow to discuss this.

I am not in agreement with this agenda. It appears as if the topic outline was created by someone who has no idea of the project and what constitutes the flow of work. Subjects are subdivided and combined with no clear logic. This needs to be fundamentally revised along the lines we have used in the past and in the recent peer review mtgs.. I suggest a mtg to discuss.

Attached is a proposed agenda for the June 21<sup>st</sup> ACRS sub-committee meeting. It incorporates DSA management's input on timing and staff presenters. Feedbacks on topics, timing and anything else please. We'd like to firm up the agenda in the next day so that slide developments can proceed. We opted not to have a separate topic on "Peer Review Highlights" but to weave any significant highlights from the peer reviews into the various topics.

P/2

Randy – We will adjust the order of presentation to support your schedule on that day..i.e., late morning.
