Subject: SOARCA CA Note

Kathryn

I left a voice message for you and will help you if you need further assistance to process this CA note. Jack had committed to getting this up to the OCM TAs prior to the SOARCA briefing to Cmr. Magwood on Oct 6th. This CA note provides an update on the staff's plans for completing the State-of-the-Art Reactor Consequence Analysis (SOARCA) study as well as the plan for the proposed new Level 3 probabilistic risk analysis (PRA) that was discussed during the February 2010 Annual Commission Briefing on Research Programs, Performance, and Future Plans.

Thanks,

Pat
