Kathy - I propose we have our lessons-learned meeting early in the week before the DRA/DSA meeting that Brian wants. I can ask Lisa to schedule our meeting for Tuesday when you get back and hopefully the DSA/DRA meeting will be later in the week. Thoughts?

Kathy, I just got done chatting with Chris. I want to have a meeting next week with DRA and DSA to discuss the go-forward plan.

Andrea/Jimi,
Please schedule a lessons-learned review next week of the SOARCA TA brief in light of Commissioner Ostendorff's comments/impressions below. We need to identify what may have led to these impressions and apply what we learn to the upcoming Commissioner briefing to remedy the Commissioner's concerns. We can also apply these lessons to the

• extension request and the communication plan.

Thanks,
K

Outside of Scope

The Commissioner raised a concern from last Friday's Commissioner Assistants briefing on SOARCA and noted an impression among the Commissioners that the staff was deferring SOARCA and putting off interactions with the Commission. I explained in some detail how we would share the draft report with the Commission in October, why we were deferring public release of the draft SOARCA report to improve it before public release, and how development of the report aligned with other initiatives that were underway, such as development of a recommendation on whether to conduct a level III PRA and identification and assessment of policy issues associated with the SOARCA results and path forward. The Commissioner noted that he intends to participate in the briefing that Commissioner Magwood has requested on SOARCA in the near future. [Subsequent to the meeting, I passed the Commissioner's concern along to Brian Sheron and Bill Borchardt; we intend to send up a Commissioner Assistants note to clarify the staff's path forward following the Commissioner Assistants briefing].
