Dear Dr. Devarie:

This refers to your request dated November 3, 2011 to place your licensed material in storage only pending receipt and approval of your license renewal. Enclosed with this letter is an amendment to your license authorizing storage only under the supervision of your Radiation Safety Officer. Please note that the term of your amended license is 2 years and the use is "**possession and storage only**". You must submit a complete renewal application that must be approved by the NRC prior to any medical use of licensed material. You may submit the information described in our letter dated September 29, 2011 as part of your renewal.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into your NRC license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**.
