RE:

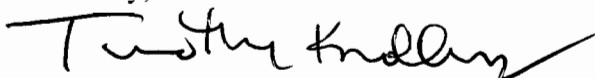

Request for termination of License #20-19545-03

TestAmerica is under the understanding that our need for NRC license was because we transported ECD's (Ni-63) in a mobile laboratory across statelines. This laboratory does not operate mobile laboratories any more but still operates ECD's out of our fix base laboratory in Westfield. We do have a license with the Massachusetts Department of Public Health for our ECD's.

Please find attached the latest ECD wipe test for the instrument that was used in our mobile laboratory. Also included is a correspondence that I had with a Health Physicist at the NRC asking for clarification on our understanding of the need for a license. Form 314 is also included.

If you should have any questions concerning this letter, please do not hesitate to contact me.

Sincerely,

Timothy D. Knollmeyer
Division Manager

Mr. Knollmeyer,

If you no longer use ECD's outside of Massachusetts and you don't take them onto a Federal Exclusive jurisdiction area within Massachusetts (Army Base). Then I don't believe you need the NRC license.

You must then request for termination. Please use NRC Form 314 to request (<http://www.nrc.gov/reading-rm/doc-collections/forms/nrc314.pdf>). Send in the leak tests of ECD that you took into NRC jurisdiction locations.

You need to do this very soon as you needed the action in prior to 30 days before expiration.
