TELEPHONE CONVERSATION RECORD

Mail Control or Report No(s): 576312 License No(s): 47-23065-01 Docket No(s): 03020231

Name of Licensee: Thrasher Engineering, Inc.
Name of Participant(s): Aaron Denham & Sattar Lodhi
Telephone No.: 304-624-4108
Subject: Inventory Information

(NOTE: This will be used as the Documents Title in ADAMS)

The licensee requested to add 4 more gauges in addition to the 15 they already have. The license authorizes Troxler Models 3400 series, 3411 and 3241 gauges, but from the licensee's letter it appeared that they only have Model 3400 series. I called the licensee to request information about their inventory (number of gauges of each model) so that the possession limits in the license are corrected. It appears that the possession limit for Am-241 in the current amendment is incorrect.

I left a message for the licensee to call me back with the requested information.

(The licensee has already acquired the four gauges and it appears that they currently possess Cs-137 in excess of the maximum possession limit authorized on the license). The RSO later called and left a message indicating that they did possess 3241 gauges but was not sure if it was 1 or 2 of this model. He will let me know later.

Action Required: Document/ Issue license without storage location.
